

Daily Planner & Productivity Tracker

Setup Guide for Google Sheets

Getting Started

Your planner comes as an Excel file (.xlsx) designed to work beautifully in Google Sheets. Follow these quick steps to set it up:

Step 1: Open Google Drive (drive.google.com) and upload the .xlsx file

Step 2: Double-click the file to open it, then click 'Open with Google Sheets'

Step 3: Go to **Extensions > Apps Script**

Step 4: Delete all code in the editor (Ctrl+A, then Delete)

Step 5: Open the included ADD_CHECKBOXES_SCRIPT.txt file and copy the entire script

Step 6: Paste the script into the Apps Script editor

Step 7: Make sure the dropdown next to Run says **setupPlanner**

Step 8: Click the Run button, then approve permissions when prompted

Step 9: Done! A confirmation popup will appear when setup is complete

This one-time setup adds real clickable checkboxes and a date picker to your planner.

What's Inside Your Planner

7 Daily Sheets (Monday - Sunday) — Each day includes:

Top 3 Priorities, a full 24-hour schedule (12 AM to 12 AM), To-Do List with checkboxes, Daily Goals with checkboxes, Habit Tracker (exercise, reading, meditation, skincare, social media break, journaling), Water Intake tracker with checkboxes (8 glasses), Mood & Energy log, Self-Care checklist, extra blank checkbox rows for your own items, Notes section, and a 5-entry Gratitude journal.

Weekly Summary

An 8-habit tracking grid spanning all 7 days with automatic totals. Plus weekly reflection prompts to celebrate wins and plan ahead.

Monthly Dashboard

5 monthly goals with checkboxes, focus areas, and monthly reflection prompts.

Tips for Best Results

- [] Click any checkbox once to check it off, click again to uncheck.
- [] Click the date field on any daily sheet to select a date from the calendar.
- [] Use the extra blank checkbox rows to add your own custom items.
- [] Duplicate daily sheets for additional weeks — just right-click the tab and select 'Duplicate'.
- [] The Weekly Summary totals update automatically as you check off habits.
- [] Print individual days or the whole planner: File > Print.
